

TREASURER'S REPORT 2020

The accounts have been available on the website for several weeks so I hope you have taken the opportunity to look at them. All sections made profits this year and we have to admit we were lucky to have been able to complete all sections of our festival. Using a card reader was very much appreciated by our audiences and looking to the future may well be the only payment method on offer. Future plans for the festival are obviously very much in balance, depending on government restrictions.

We have introduced a new system for entries this year using the Paypal platform. This is hoped to reduce the hours our administrator has to spend on them. The office costs are still steady, but we may have to look at our lease as it comes up for renewal.

We would like to thank Ian Walker at Mastersfuller accountants for looking at our accounts, and would like to propose we use them again next year.
